

# The Paducah Evening Sun.

VOL. XXVII. NO. 75.

PADUCAH, KY., TUESDAY EVENING, MARCH 29, 1910.

TEN CENTS PER WEEK

## SEWER DISTRICT NUMBER THREE IS GREATLY DESIRED

West End Residents Will Petition General Council For It.

Sickness Caused by Lack of Sanitary Connections

PLANS OF THE CITY ENGINEER.

Residents of the west side are in danger.

This announcement was made today from the city health department, which will back the efforts of property owners along Fountain avenue and the surrounding territory for the proposed No. 3 sewer district, which has been for many years the hope of City Engineer L. A. Washington.

A petition is being prepared and will doubtless be signed by every property owner of the West End and presented to the general council, asking for an issue of special assessment bonds for a badly needed sewer that will give relief. The dry wells in that section of the city are unsatisfactory and cause considerable sickness. That is the reason for so much illness in that part of the city, according to the city health officer. The sickness is largely responsible for the earth being saturated with the liquid from the dry wells. The health officer said today the residents are awakening to the fact that they are living in constant danger with the rapidly increasing population. The health department is urging the movement and will lend every effort to get the sewer through.

A trunk line sewer ten feet in diameter beginning on Fountain avenue and running northeast to the Ohio river is the only solution of the problem, according to City Engineer Washington. This has been his plan for years. It is proposed to begin the sewer at the intersection of Fountain's avenue and Broadway, running north on Fountain avenue to Harrison street, east on Harrison to Harahan boulevard, south on Harahan to Trimble and down Burnett street to the river, taking in the hollows in the lower extremity.

In the opinion of the city engineer the trunk line would cost approximately \$200,000. Branches could be run out, taking in all the west end. The main sewer would take care of an enormous amount of drainage. The trunk line would remove the immediate danger of the present.

The petition will be probably presented to the general council next week, if it is completed by then, and some action may be taken immediately. The bills providing for the city issuing bonds was recently passed in the state legislature.

Under the new public improvement act, the general council declares a certain improvement district and the assessment is made against all the property owners benefited by the improvement.

## PITTSBURGH'S GRAFT PROBE GOING DEEPER

Pittsburgh, March 29.—More bankers appeared today in the city council graft probe. Of the bankers representing six banks, twenty have been examined to date. Harrison Nesbit, foreman of the jury, is taking an active part in the questioning. He was a former bank examiner and is thoroughly alive to the situation.

## Bishop Woodcock Coming

The Right Reverend Charles E. Woodcock, bishop of the Episcopal diocese of Kentucky, will arrive tomorrow evening from Louisville and will preach in Paducah Wednesday and Thursday evenings. He will speak at the House of the Good Shepherd in Arcadia Wednesday night at 7:45 o'clock. Thursday night he will preach at Grace Episcopal church at 7:45 o'clock and will hold confirmation at the close of the sermon. Bishop Woodcock is an eloquent preacher and always has large congregations on his visit here.

## Telephone Meeting

New York, March 29.—At a special meeting of the stockholders of the American Telephone & Telegraph company, they approved the plan to increase the capital from \$300,000,000 to \$500,000,000 and enlarge the board of directors from 18 to 25.

At the annual meeting, following the special meeting, the retiring board of directors was re-elected.

## Palmist Brings Suit For Damages Against Former Chief of Police James Collins and Other People

Mme. Castellano, Charged With Robbery, Establishes Alibi, But Feels Greatly Aggrieved by Experience.

For damages as the result of two alleged false arrests, Mrs. Laura F. Keiner and her husband, C. R. Keiner, of Mount City, Ill., have filed suit in the federal court against James Collins, former chief of police of the city, S. H. Heilbronner, city marshal of Henderson, and Daisy Moss, colored, of Henderson, for \$12,500 damages. Mrs. Keiner is a palmist who uses Madam B. Castellano as her business name, and alleges she was arrested for the theft of a gold watch in Henderson, but in both trials established her innocence.

A watch is said to have been stolen from Daisy Moss, colored, of Henderson, October 9, and a palmist was suspected of being guilty. Madam Castellano was in Paducah, and on October 15 she alleges she was placed under arrest at midnight by James Collins upon evidence furnished by Heilbronner and Daisy Moss. She says her house was searched by the police, who were looking for the stolen watch, and that her arrest and the search were humiliating. On the following day she says she was tried in police court before Police Judge D. A. Cross and was acquitted.

Following her acquittal in police court, Madam Castellano alleges that Marshal Heilbronner and Daisy Moss went before the Henderson county grand jury, and offered evidence so that an indictment, charging her with grand larceny, was issued, and that on October 20 she was placed under arrest again by James Collins. She recites that she was taken to Henderson as a prisoner in a railroad coach, and after Henderson was reached she was placed in jail for six days. She alleges the cell was damp, and she suffered from cold so that her health has been affected.

On her second trial she alleges that she spent \$400 in order to take witnesses from Paducah to Henderson for her trial. After the trial was begun the case was dismissed by the prosecution. She says by reason of the wide publicity given her arrests that her reputation as a palmist has been damaged, and she seeks to recover \$10,000. The damage to her health is estimated at \$2,500. The suit was filed by Attorneys Oliver & Wickliffe.

## Tobacco Sales

At Bohmer's loose leaf tobacco warehouse this morning 32,000 pounds of tobacco were offered and sold. High price, \$11.85; low \$5.50, making an average of \$10.14. Mr. Nat Dorch, of Hopkinsville, was among the buyers present.

## Tobacco Arrivals

Heavy shipments of tobacco from Calloway, Graves and Marshall counties are being made to the Western District warehouse at Paducah and Mr. M. M. Tucker, who is in charge, anticipates one of the largest sales of the year Thursday, April 7. At that time he predicts that the number of both local and out-of-town buyers to be present will outnumber any in the history of the warehouse. Prospects are bright for the sale of about 500 hogsheads of tobacco. Good tobacco is scarce and buyers are searching for it everywhere.

## BREAKERS LEAVE

Six non-union leatherworkers, said to have been brought here as strike breakers in the strike of the leatherworkers, left the city last night. The men were in the city yesterday, but the union men held a conference with them and as a result the non-union workers left last night at 6 o'clock for Tennessee.

## Wolters Loses Nerve But He Regains it

New York, March 29.—Cringing in his cell, his nerve gone, Albert Wolter, charged with the murder of Ruth Wheeler, is preparing to confess to the police. He promised Inspector Titus as soon as he had written a letter to Katchen Mueller and received an answer he will make a confession. Police got the promise from Wolter by playing on his affection for the Mueller girl. They told him she would be charged with the crime in case he didn't confess. Inspector Titus insisted that, lawyer or not, Wolters will tell all he knows. Scott, his attorney, said when leaving the Tomb, that he believed Wolter is innocent.

Police are angry at the changed condition in Wolter, but insist they have enough circumstantial evidence to convict him without a confession. Inspector Titus insisted that, lawyer or not, Wolters will tell all he knows. Scott, his attorney, said when leaving the Tomb, that he believed Wolter is innocent.

## THE WEATHER

The predictions and temperatures for the past twenty-four hours will be found at the top of the seventh column on page four.

## LIVINGSTON LAD ONE OF VICTIMS OF CHARLESTON

Body of Henry Almond Heater Will be Brought Back to Tiline.

Barn is Burned by Incendaries.

SMEDLEY APPEAL APRIL 11.

Smithland, Ky., March 29. (Special).—The body of Henry Almond Heater, who was killed on the cruiser Charleston by the premature discharge of a gun, will be sent to his home, Tiline, Livingston county. His father, J. N. Heater, a prosperous farmer, has wired for his body. The young man enlisted at Paducah three years ago. He went around the world with the fleet and was recently transferred to the Charleston. He was 2 years old and enlisted with his parents' consent. There is a large settlement of the Heater family in Livingston county about five miles from Smithland. The dead boy had many friends here.

There were two boys from this section among the dead. The other was Maxie Bernard, of Cave-In-Rock, Ill. His next kin is his mother, Mrs. Sarah Shelton, Ardmore, Okla. Bernard also enlisted at Paducah.

Incendiary Fire.

Smithland, Ky., March 29. (Special).—The state fire marshal is on his way to Smithland to investigate the burning of B. B. Wright's big barn on his farm three miles from town. Last Saturday a notice was fastened to his gate, warning him to evict certain white tenants, who were not pleasing to his neighbors. Sunday night the big barn, which contained a quantity of hay, was burned. An effort to secure bloodhounds was unsuccessful, but the officers have a clue to the incendiaries.

April Term Court of Appeals.

Frankfort, Ky., March 29.—The appeal of Hiram Smidley, former county court clerk of McCracken county from the sentence of 5 years in the penitentiary for misappropriation of public funds, will be heard in the court of appeals Monday, April 11.

The docket is:

Commonwealth cases.—Monday, April 11, Eddy vs. Commonwealth, Scott; Ward vs. Commonwealth, Garrard; Smedley vs. Commonwealth, McCracken; Rossen vs. Commonwealth, Muhlenberg; Cash vs. Commonwealth, Muhlenberg; Smith vs. Commonwealth, Henry; Allen, etc., vs. Commonwealth, Clay.

August 30, 1910, is the last day for filing appeals for the September term, 1910.

Wednesday, April 13, 1910. First Appellate District.—Jones by, etc., vs. Mobile and Ohio R.R. Co.; Hickman; Meadows vs. Shelborne, Fulton; Morris vs. Roberson, Fulton; I. C. R. R. Co., vs. Dupree, etc., Fulton; Wheeler vs. Wheeler, etc., Graves; I. C. R. R. Co., vs. Long, Graves; Austin vs. Evans, Graves; Walters vs. Dorlan, etc., McCracken; Kincaid's admr. vs. Paducah Tract Co., McCracken; Curtis vs. Iseman, McCracken; Craig, vs. Sipter, McCracken; Davis, etc., vs. Harrison, McCracken; Palmer Transfer Co., vs. Daugherty, McCracken; Perkins vs. Ogilvie, etc., McCracken; Kirkpatrick & Co., vs. Rehkopf Saddlery Co., McCracken; James Manufacturing Co., vs. Rehkopf Saddlery Co., McCracken; Southern Insurance Co., of New Orleans vs. Johnson, Marshall; Commonwealth, for use, etc., vs. Ferguson, supt., Livingston; Wooten vs. Martin, Lyon; Allison vs. Cash, etc., Lyon; Collins, etc., vs. Lawson's committee; Trigg; Dunn vs. city of Cadiz; Tippins; Franks vs. Smith, Caldwell; West Kentucky Coal Co., vs. Davis, Union; Dunigan, etc., vs. Wallace; etc., Webster; Tappin's admr. vs. Poindexter, Webster; Madisonville and Eastern R. R. Co., Hopkins; Ayer, Lord Tie Co., vs. Baker, Muhlenberg; Indiana Tie Co. vs. Landrum & Howerton, Muhlenberg; I. C. R. R. Co., vs. Reed, Muhlenberg; Doss, etc., vs. Holt Coal Co., Muhlenberg; Rager, etc., vs. L. and N. R. R. Co., Muhlenberg; Gish vs. Shaver, sheriff, etc., Muhlenberg; Hendrick's admr. vs. Adams Express Co., Muhlenberg; Towne's admr. vs. Robertson, Muhlenberg; Barnett vs. Williams, Christian; Steuart vs. Peetree, Christian.

SENATOR ALDLS RESIGNS PLACE

## Speech in Senate Defending Bill to Extend President's Authority to Withdraw Power Sites Land

Insurgents Will Postpone Further Fight on Cannon Until Taft's Program is Carried Out.

Washington, March 29.—Senator Chamberlain today in a speech before the senate, favoring the bill, giving the president power to withdraw public lands for forestry and water power sites, irrigation, and classification of lands, and for other purposes, accused congress of enormous waste. He said the main principle involved in the president's power to withdraw lands was never disputed till lately. He said: "It is necessary to protect what remains of the public lands for the benefit of the whole people; and to conserve the undisposable, of unappropriated natural resources.

Ship Subsidy Lobby.

The house this afternoon by a vote of 125 to 65 decided to make an investigation of the charge that there is a ship subsidy lobby influencing congressmen. The investigation will be by a committee of five, as the result of the resolution, introduced by Representative Stoermer.

(Continued on Page Four.)

## SAYLER'S BODY IS STUMBLED OVER

WITNESS DROPS LAMP CHIMNEY —BLOODY PAPER FOUND.

Watseka, Ill., March 29.—Dr. J. S. Near resumed the stand in the Sayler murder trial today. He told of entering the room immediately after the shooting and almost stepping on Sayler's body. He said he carried a lamp with a misfit chimney. It fell off and a strange man picked it up. He said the man picked up the chimney with some paper, later found to be blood stained. Dr. Near's testimony makes it certain that paper was brought into the room after the shooting. W. O. Sayler testified that the last he saw of the hatchet was in his bungalow on the Iroquois river.

Several thousand Nationalists made a demonstration last evening against Roosevelt's speech yesterday before the University. Nationalists marched before the hotel, shouting "Give us a constitution. Down with autocratic government." Many guests were frightened. Roosevelt paid no attention to the demonstration. In his speech yesterday he said a constitution is a dangerous gift if the people are not trained to the requirements.

Fear For Roosevelt.

London, March 29.—English people declare they will breathe easier when Roosevelt leaves Egypt. While praising his fearlessness in speeches, they fear that he will go too far and disturb the delicate balance of politics or invite an attack by some fanatical Nationalist.

Frame Fire Trap Torn Down.

Under orders from Fire Chief James Wood, an old frame shack at the corner of Clements street and Yeiser avenue was torn down this morning by the firemen of the No. 2 station. Twice the shack has been discovered on fire, but was saved. It was considered dangerous, and Chief Wood ordered it razed. The shack was owned by Peter Eley, of Benton.

Cincinnati, March 29.—All negotiations between the miners and operators of Indiana Ohio and Pennsylvania are broken off. The strike is scheduled for April 1, miners assert.

## ENTHRONEMENT OF NEW BISHOP AT LOUISVILLE

Great Crowds Attempt to Get in Cathedral Where Service is Held.

Pontifical High Mass Said by Prelate.

DELIVERS HIS FIRST PASTORAL.

Louisville, Ky., March 29. (Special).—Great crowds were at the cathedral this morning long before the hour for the coronation of Bishop O'Donaghue. Many were unable to get inside the building.

The bishop arrived last night and was escorted to his residence by 2,000 people. The ceremonies began at the cathedral at 9:30 this morning. The bishop was escorted by clergymen and laymen and reached the church promptly. He sprinkled the walls of the cathedral with holy water and was preceded up the aisle by clergy, marching two abreast and chanting the Te Deum.

The main feature was the celebration of the pontifical high mass by Bishop O'Donaghue.

The sermon was preached by the Rev. C. P. Maes, bishop of Covington. Archbishop Moeller also spoke, after which Bishop O'Donaghue delivered his first pastoral address to the clergy and laymen.

The music of the mass was Haydn Imperial, with a choir of 150 trained voices, assisted by the Louisville symphony orchestra and directed by Gratz Cox. Handel's celebrated "Hallelujah Chorus" was given at the offertory.

A big dinner at the Seabach ended the day's festivities.

Officers of the mass, besides the new bishop, included 17 priests, among them was the Rev. George W. Conner, of Owensboro.

FUNERAL OF FRANK BYNUM IS HELD AT MCKENDREE

The funeral of Frank Bynum, 35 years old, took place this afternoon at 4 o'clock with burial in the McKendree cemetery. He died yesterday afternoon at 5 o'clock after an illness with abscess of the brain. Mr. Bynum was a farmer, and resided in the Concord school house neighborhood, and was a popular man. He is survived by one sister, Mrs. Albert Nulty, and three half-brothers.

## BACCALAUREATE AT FIRST PRESBYTERIAN

The Rev. H. W. Burwell, pastor of the First Presbyterian church, will preach the baccalaureate sermon of the 1910 graduating class of the High school. The sermon will be delivered June 4, but it has not been decided whether the service will be held in the morning or evening. Dr. Burwell recently came to Paducah and is a most gifted man.

May Be Gang of Thieves.

Wheels continue to be missing, and it is believed that a gang of thieves is operating in the city and shipping the bikes away for sale. Last night the wheel of Aubrey Meacham was stolen from on Broadway between Fifth and Sixth streets. The police have received many complaints of missing bikes.

Naples, March 29.—Authorities have issued orders for the evacuation of the entire southern slope of the mountain, owing to the increased activity of Mt. Etna. The evacuation means that 75,000 people are temporarily homeless. Simultaneously with the reopening of Mt. Etna, Vesuvius subsided. Scientists claim both are affected by the same cause.

The opening of Mt. Etna's crater prevented a serious earthquake in the opinion of scientists. During the hours the vents were closed, the rumblings of the mountain increased severely. When reopened they decreased.

Mr. E. O. Watson, of Owensboro, is visiting Mr. G. Chandler, of Kentucky avenue.

## DEAN SNOW TALKS TO HIGH SCHOOL

PROPER METHODS OF TEACHING  
HISTORY HIS SUBJECT.

He Is Believer in America, Her Mission and Her Future—A Fine Address.

IS STATE UNIVERSITY MAN.

Proper methods of instructing pupils in history was the theme of an excellent address delivered this afternoon by Prof. L. F. Snow, dean of the department of education, of the Kentucky State university, at the High school auditorium. The address was replete with splendid points for the teachers of the city schools, and the High school students, who composed the audience. Dr. Snow is a pleasing speaker, and he showed a clear insight into his subject.

In the beginning Dr. Snow said "no man liveth to himself and no man dieth to himself." Man is not a social outcome but a social unit; he is a part of his environment; and in his life truth and justice eventually will prevail. He said the great purpose of teaching history is to show the inter-relation of all branches of the human family; and that the four essentials of successful teaching are spontaneity, enthusiasm, versatility and fervent patriotism.

He associated Kentucky with a prominent part in the history of the United States, and said that native son should not be ashamed of the part his forefathers had taken. He linked the names of Henry Clay, Abraham Lincoln and Jefferson Davis as men of great power, who had influenced the nation. With dramatic effect he told the story of the battle of New Orleans as related by the English soldiers. He said they feared not the roar of the cannon for ever soldier realized that he stood a chance, but in the lines were the marksmen of the Kentucky frontiers, and every time a rifle was raised a shot sped with unerring aim, and a British soldier dropped.

He devoted several minutes of his address to tracing of history of European countries with America. He said that the periods of influence of the United States in the advancement and progress have been epochs of peace. Dr. Snow is optimistic, and he insisted that the national spirit burns as brightly today as in the early days of the republic. He said that the brave deeds of our forefathers inspire the American people, and will have a potent part in shaping the destiny of the nation.

**FILES CURED IN 6 TO 14 DAYS.**  
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

**SLAUGHTER OF CHICKENS  
IN THE CITY A NUISANCE.**

Orders to abate a slaughter house have been given Mrs. Welsh by the board of health. Mrs. Welsh lives on Monroe street between Third and Fourth streets, and on complaint of residents of that vicinity the action was taken. The health officer said that was no ideal spot to slaughter chickens as the property was not properly drained.

"Does she seem to take kindly to society ways now that her husband has made such a pile?"

"Oh, yes, indeed. She was the loudest talker in the house at grand opera the other night."—Cleveland Plain Dealer.

The payrolls of the enlisted men in the navy during 1911 will aggregate nearly \$18,000,000.

The river here will fall slowly to day and tomorrow.

**TODAY'S ARRIVALS.**

Dick Fowler from Cairo.

Clyde from Waterlooville, Ala.

Cowling from Metropolis.

Nashville from Nashville.

Ohio from Golconda.

**TODAY'S DEPARTURES.**

Clyde for Metropolis.

Belle Vernon for Mt. Vernon.

Dick Fowler for Cairo.

Nashville for Nashville.

Ohio for Golconda.

Cowling for Metropolis.

**RIVER AND WATER.**

The river here fell three-tenths of a foot yesterday, marking 14.3 feet this morning. Weather cloudy and business good.

**DRIFTWOOD.**

Capt. George M. Green, of Nashville, a steamboat inspector, arrived in the city last night.

At 2 o'clock yesterday afternoon the towboat J. H. Friend arrived from the Mississippi river with two barges of cotton wood for Cincinnati paper mills.

From Chattanooga, Tenn., the Chattanooga arrived early yesterday afternoon and departed a short time later for Evansville trade by the Chattanooga Packet company. She is due back tomorrow afternoon and will leave immediately for the Tennessee.

The Clyde arrived at 6:15 o'clock this morning from the Tennessee with a fair trip. She departed at 7:15 for Metropolis and returned this afternoon. She leaves tomorrow evening at 6 o'clock for Waterloo, Ala.

There was no Evansville packet from here today. The John L. Lowry is due here tomorrow afternoon.

Capt. James Koger, of the St. Louis & Tennessee Packet company, is expected back the latter part of the week from a trip to Cuba and the Bahama islands.

The towboat Harry Brown passed up at 3 o'clock yesterday afternoon with empties bound for Pittsburgh.

Capt. E. Awtall took a log raft from the Tennessee today delivering it to the Marshal box factory at Metropolis.

The Nashville is due in port today from Nashville.

The J. B. Richardson will arrive from Clarksville tomorrow morning and leave at noon for Nashville.

Wallace "Skeet" Aaron went out second clerk on the Dick Fowler this morning.

The Electra is due tomorrow from Evansville on her way to Nashville. She should have arrived today but was delayed.

The Mary Anderson got away for Caseyville this morning after a tow of coal.

Almost brand new and with her name changed to the Belle Vernon, the John W. Love, the towboat long to be remembered for her harrowing experience in the ice floes the past season, is ready to depart for Mt. Vernon, Ind., this afternoon. Her owner Capt. I. N. Flescher, has been here several days getting her in shape. She was completely overhauled on the marine ways.

Big corporations opposed to the raising of the bridges spanning the Allegheny river, as proposed by the war department, have attacked the

project on the ground that the fault with the river at present is not that navigation is obstructed used on the rivers for the past fifty years is at fault, and that their design should be changed to accommodate the bridges rather than that the bridges be raised.

The contract for the ferry wharf boat has been let by the Paducah and Illinois Ferry company to Thomas Cutting, of Brookport, for several thousand dollars. Mr. Charles Roberson returned from Brookport this morning where he closed the deal yes terday. This morning he received a letter from President John E. Rollins of the company, who is in Helena, Ark. He stated that work on the new ferryboat was progressing rapidly and would be out on time, which is May 15.

The U.S. dredge boat Colbert arrived this morning from Colbert shoals, up the Tennessee, for supplies. She will return this afternoon.

Will Testify in Suit Brought Against His Mother.

## Free Sample Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the digestive organs.

It becomes harder and harder to get the bowels to move promptly and regularly and in consequence man eides by a diet not only from the basic trouble, constipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating, etc. It is almost impossible to find all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to again do their work naturally. A non-stimulating or purgative is not only unnecessary but harmful, and something mild will do the work just as well.

After you have got through experimenting with salts and pills and waters of various kinds, and have become convinced that they do only temporary good at best, then try Dr. Caldwell's Syrup Peppermint, a mild, gentle laxative, a non-stimulating tonic that is especially adapted to the requirements of old people, women and children, and yet is effective enough for any one who has undergone what has enabled it successfully for a quarter of a century, will sell you a bottle for fifty cents or one dollar, but if you want to make a test before spending your money send your name and address on a postal card or letter to Dr. W. R. Caldwell, 11, 507 Caldwell building, Monticello, Ill.

This remedy is rapidly displacing all other forms of medication in cases of stomach, liver and bowel trouble and families like Mr. O. F. Wisher's of Syracuse, N. Y., and Mrs. Carrie Cullen's of 325 N. Notre Dame street, South Bend, Ind., are now never without it in their house. They have tested it and know its grand value to every member of the family.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Address him in care of his office and he will reply to you in detail. For the free sample simply send your name and address on a postal card or letter to Dr. W. R. Caldwell, 11, 507 Caldwell building, Monticello, Ill.

## HOTEL ARRIVALS

PALMER—Nat F. Dorch, Hopkinsville; R. A. Wilson, Boston; A. L. Mason, Mayfield; R. L. Shewell, Benton; Miss Bessie Holland, Benton; J. Elliott Baker, Princeton; W. F. Ross, Terre Haute; John Ward, Madisonville.

BELVEDERE—J. A. Anderson, St. Louis; Will Wray and wife, Bardwell; D. E. Burrow, Kevil; Joe Radford, Mayfield; O. G. Lassiter, Memphis; J. H. Winters, Nashville; R. H. Fowler, Louisville; R. C. Lieper, Brookport.

NEW RICHMOND—P. A. Moore, Jordan; M. E. Hester, Mayfield; F. A. Otterson, Cairo; John Coton, Cairo; J. M. Stamps, Murray; M. Ledbetter, Cave-in-Rock; F. Teague, Louisville; P. B. McChesney, Princeton; O. R. Bennett, Nashville.

TRYING TO ESCAPE FROM POLICE HE BREAKS LEG.

In trying to elude policemen last night Lonnie Tucker, colored, 20 years old, dropped from the second story window of the Hutchinson colored hotel, 1927 Washington street, fracturing his right ankle. Instead of being delivered to the city hall he was helped to his bed. Patrolmen Gilliam and Dunaway had a warrant for his arrest and went to his room. When they turned on the light Tucker crawled out of the window, hanging by his hands and then dropped. Unable to hobble off he was caught.

Mabel, aged 3, taken to the butcher shop for the first time, gazed in horror at the sawdust on the floor. "Pa," she whispered, "does he butcher dolls?"—Buffalo Express.

## AT 74 OWES FINE HEAD OF HAIR TO CUTICURA

Itching, Scaling Scalp Humor was Making It All Fall Out—Two Doctors Could Not Stop the Trouble—Niece Advised Using Cuticura.

CURED HER SCALP AND MADE HAIR GROW AGAIN

"My mother used to have a very bad humor on her head which the doctors called an eczema, and for the last few years she had it. Her head was very sore and her hair nearly all fell out in spite of what they both did. One day her niece came in to see her and they were speaking of how her hair was falling out and the doctor said it was no good. She says, 'As far as I don't try to cut my hair with Cuticura Ointment.' Mother did and they helped her, so she soon began bathing with the Cuticura Soap and anointing with the Cuticura Ointment, and in six months' time the itching, burning and scaling of her head was over and her hair began growing. Today she feels very much in debt to Cuticura Soap and Ointment for the fine head of hair she has for an old lady seventy-four years old."

In regard to my own case, mine was an eczema something like hers. It was in my feet. As soon as the old weather came on, I would itch and burn and then they would crack open and bleed. Then I thought I would see to my mother's friends, Cuticura Soap and Cuticura Ointment. I did for four or five winters and now my feet are as smooth as any one's. Elsworth Dunham, Hiram, Me., Sept. 30, 1909."

What Barnum Said of Cuticura.

F. T. Barnum, the famous circus man, once wrote: "I have had the Cuticura Remedies among the cures of my medicine chest for many years. They show for the last three seasons, and I can cheerfully certify that they were very effective in every case which called for their use."

Complete External and Internal Treatment for Every Humor of Infant, Child and Adult. Cuticura Ointment (one to two per cent) to Heal the Skin and Cure Eczema, Ulcers, Ringworm, etc. Cuticura Soap (one to two per cent) to Purify the Blood, Remove Impurities, and Stimulate the System. Sold throughout the world. Potter Drug & Chemist, 122 State Street, New York. Cuticura Ointment, 25c; Cuticura Soap, 15c. For Mailer, Free. 32-page Cuticura Book on Skin Diseases, and their Specifics, Comminuted Remedies.

## BULL MUSCLE WAS STRAINED

HARD WEEK IN THE WHEAT MARKET.

Tough Work to Score Moderate Advance in Prices Was the Experience.

CORN IS IN BETTER SHAPE

Chicago, March 29.—Despite a flood of unfavorable crop reports reaching the market last week, it required a constant application of muscle and brawn on the part of the bulls to score a moderate advance in prices. The trade is confronted by a mixed situation. Conservative reports show that irreparable damage has been done in Eastern Kansas, but with timely rains the acreage affected will cut off but little more than the increase over last year in the acreage seeded last fall.

Last week, however, there was no trace of rain, or no signs of any in the immediate future in the states affected and the bulls had the best of the argument insofar as the new crop was concerned. Just as present the trade is giving its undivided attention to Kansas weather reports. Friday a holiday, the brokers and traders were fairly standing in line in the corridors of the board waiting for a chance to read the official bulletin giving the weather indications. The official forecast was for a continuance of clear and warm weather similar to that of the last few days.

**Fear of Rain Acts as Check.**

In a way the market has been held in check all week by fear of the effect the first rain would have on prices. A false rumor of a thunderstorm in Kansas one day during the week broke prices 1 cent in a few minutes. Just what effect general rains over the big wheat states would have is what makes holders extremely cautious and causes profit-taking by buyers on every good upturn in the price. When the market closed for the week gains in prices over the close of the previous week amounted to 1½ cents for May and 2 cents in the new crop months.

**Bearish Situation.**

The supply and demand situation so far as the old crop is concerned is bearish. While visible stocks still are less than a year ago, they are making steady gains on last year's total. Farm reserves are well stocked up with wheat, with stocks of flour much larger than is generally reported. The milling demand recently has lagged in all markets, and cash premiums, especially for red winter, have decreased considerably.

Anything short of contract grade has been selling at a discount, where a few weeks ago almost any good wheat brought substantial premiums over May delivery.

The foreign situation also is bearish, with stocks larger than last year, crop conditions generally favorable and prospects for future supplies causing no worry, despite the slow and restricted movement from Argentina. American wheats are far out of line for export, except low-grade Manitobas and durums, the former occasionally selling in moderate lots or breaks, but so far as United States wheats are concerned, the market is decidedly on a domestic basis. More so than has been the case for a long time.

**Pattern Line Offset.**

One of the offsets to the bearish situation, statistically, which has been effective is a Pattern line of September wheat, supposedly of several million bushels. The Pattern holding is, of course, accompanied by the usual following, and this feature is probably more important in the pit than the western damage reports.

The bears in the market still persist in the belief that the damage reports are greatly exaggerated, and, although they admit that some damage has been done, they claim that the native "crop killer" and the imported "crop experts" have been given greater opportunities for pessimism by skipping the good fields and telling about the bad ones.

Although it was only a few weeks ago they maintain that the crop was being smothered with ice, snow and sleet, which are supposed to contain moisture, these conditions have promoted the circulation of the most sensational reports in many years mainly claiming 95 per cent loss by winter killing and drought.

**Skinny Reduction.**

Those closest in the big bull interests in the trade claim that they have been adding to their lines on each depression and are firm believers in a serious reduction in the wheat acreage from winter killing which cannot be made good by rains.

A change of this kind puts aside food of low nutritive value and takes up food and drink of the highest value, already partly digested and capable of being quickly changed into good, rich blood and strong tissue.

A most valuable feature of Grape-Nuts is the natural phosphate of potassium which grows in the grains from which it is made. This is the element which transforms albumen in the body into the soft gray substance which fills brain and nerve centres.

Public Not Excited.

Through all the period of crop damage to date the public has shown little disposition to become excited over the crop situation or to rush into the market as buyers. There was some increase in the volume of

## HOW TO CONTROL AIR NAVIGATION

WILL SUBMIT THEM TO GOVERNMENT FOR RATIFICATION.

Code Aims to Protect the Rights of Aeropilot and of Property of Man On Ground.

FRENCH CLUB MAKES RULES

Paris, March 29.—Rules and regulations controlling the navigation of the air designed to meet the new and complex problems arising from the development of aviation have been formulated by the Aero club of France and have been submitted to the French government as the basis for a national law. The code elaborated after much study, aims to meet the rights and interests of all of the aeropilot and balloonist flying through space and of the man and man's property on the earth below.

Following are some of the club's suggestions:

Aerial craft, whether aeroplane or dirigible balloon, must not circulate lower than 150 feet above private property.

Flight above cities requires a permit from the municipalities.

Flight in a fog is not allowed, and the transportation of explosives, except hunting ammunition, are prohibited.

**To Avoid Collisions.**

The selection of general aerial routes is recommended as a way of avoiding collisions, and aeroplanes and dirigible balloons should keep of a certain distance from spherical balloons, to the end that if explosions or other accidents happen to the dirigible machines the spherical may not be endangered.

For the protection of the aeronauts it is recommended the proprietors of high buildings and other structures be required to illuminate their property at night at each level of 250 feet, while all electric wires and conduits strung above 150 feet from the ground should be marked each 600 feet with a white flag by day and a white light by night. Other suggestions relate the establishment of "aerial ports of access" to large cities.

The project is now being studied by M. Millerand, the minister of public works.

**IT You Have Eczema,**

If you have eczema would you like to get prompt relief and be permanently cured by a clean liquid preparation for external use? Mr. W. J. Gilbert, the chemist, has this remedy in stock. He knows the ingredients and knows of its wonderful curative and healing properties ZEMO has cured a great many chronic cases of eczema and other forms of skin and scalp disease. Mr. Gilbert will give you a booklet on skin diseases and explain to you how you can be cured in your own home by this clean, simple remedy. ZEMO is pleasant to use and can be used freely on infants. It cures by drawing all germ life and poisons to the surface of the skin and destroying them leaving the skin clean and healthy.

## RAILROAD NOTES

U. H. Clarke, division storekeeper, Leon Gleaves, chief clerk in the master mechanic's office, James Mulvin, timekeeper, and J. R. Rutter, accountant in the storekeeper's office, left this morning for Memphis to attend an expense meeting.

The March issue of the Illinois Central employees' magazine has been received here. Among the illustrations of the shops over the system a picture of the staff of Master Mechanic J. H. Nash, and the staff of Fourth Kansas district, and Senator Charles Curtis, of the same state, introduced a measure entitled "a bill to constitute intoxicating liquors as a special class of commodities and to regulate the interstate commerce shipments of such liquors."

This bill is intended to give the states jurisdiction over intoxicating liquors just as soon as the liquor crosses the state boundary. If enacted it will be a far-reaching step in the direction of curbing the traffic in intoxicants.

**Illinois Fight Grows Warm.**

Chicago, March 29.—A struggle that is little short of spectacular is raging between the wets and drys down state. Three hundred incorporated municipalities, including nearly every city of size outside of Chicago, will vote on the liquor question at the spring elections.

So far the down state fight has been eclipsed by the campaign over the saloon question in Chicago, but

Mr. J. Fowler, traveling passenger agent, was in the city today on business.

George Richardson, who was injured several weeks ago, returned to work this morning.

John Shaw, of the car department, has gone to Houston, Texas, on a visit.

J. F. Smith, foreman of the blacksmith shop, has gone to Chicago on business.

Quincey P. Wallace left last night for Chicago on business connected with the Brotherhood of Railway car men.

Mr. Lish Wilkes, of the car department, who is ill of rheumatism, is at the hospital, but is improving his friends will be glad to learn.

**GEN. W. P. ROBERTS DEAD.**

Was Youngest Brigadier-General in Confederate Army.

Norfolk, Va., March 29.—Gen. W. P. Roberts, of Gatesville, N. C., who bore the distinction of being the youngest brigadier-general in the Confederate army, died here today as a result of a fractured hip, sustained in a fall at his home recently.

Gen. Roberts, who was 69 years old, commanded a brigade in the southern army when he was 23 years old. The body will be sent to his home in Carolina for interment.

**Public Not Excited.**

Those closest in the big bull interests in the trade claim that they have been adding to their lines on each depression and are firm believers in a serious reduction in the wheat acreage from winter killing which cannot be made good by rains.

It was the opinion of the nine out of ten traders that if the weather continues dry a few days longer a bull market of great force may be expected. Those who study the other features of the trade situation in connection with the crop news argue that the falling off in farm offerings of wheat, both northwest and southwest, last week indicates danger to the growing crop which induces wheat raising to hold on to reserves.

**Public Not Excited.**

## What Do You Think of Front-Laced Corsets?

If you have worn one, it is not necessary for us to ask the question. We know you are pleased with them, but YOU, madam, who have never worn one, what do YOU think of front-laced Corsets? A child can see that they are easier to manipulate. They clasp in front and they lace in front; they give the sculptured back; dressmakers say that gowns fit better over them; physicians commend them because they easily and naturally support the abdomen.

**THE GOSSARD CORSET**  
"They Lace in Front"

You may be told elsewhere that GOSSARD front-lacing corsets are not adapted to your figure, but a fitting is the test. Try one on and see. Others may offer you a front-lacing corset of some other make which they claim is just as good. A careful comparison will convince you that the "just as good" kind is never so satisfactory. The GOSSARD CORSET was the first and is the first front-lacing model on one model only; there are nine models. There is a model exactly right for you.

Model "D," the most advanced model for 1910, is an example of the highest art in corsetry. It is designed for the woman desiring absolute freedom from restraint of diaphragm and chest. Wear with the GOSSARD bust confiner No. 5. It gives the perfect outline of a corset having bust of usual height. It is perfect, closed habit back stamps the wearer "distingué" in any assembly. Above the waist line it is high in the back, graduating to girdle dimensions in front. Lacing in the front, every organ is freed from restraint and supported in the position nature demands. The result is the extreme of length with the extreme of suppleness. Another vastly important and essential feature is the "ELECTROBONE" boning. It is light, resilient and non-rustable.

**Show in \$6.50, \$15, \$18 and \$22.50 Qualities**

Come here where you will find the largest stock of front-lacing corsets in the city and be fitted by an expert GOSSARD fitter.

**NATIONAL FIGHT**

now that the metropolis has been eliminated from the war map this spring, the attention of the opposing forces has been focussed on the camp-paign outside.

Two classes of cities will vote on the saloon proposition. At the election of April 7, 1910, more than 1,000 townships voted on the saloon question, and 918 townships went dry, while 219 remained wet. More than 1,000 saloons were put out of business at this election.

The fighting this time is largely in dry territory, where the wets are campaigning with a view of restoring the saloons. Of the 300 and more contests down state the Anti-Saloon League official estimate that fully two-thirds are in territory now dry, where the question that will be submitted to the voters will take the following form, under the provisions of the local option act:

"Shall this (political subdivision or district) continue to be anti-saloon territory?"

One hundred cities and villages now dry will vote on this proposition. The second class of municipalities engaged in the fight contains municipalities that now are wet. They either voted the proposition down or were put out of business by the campaign over the saloon question in Chicago, but

PETER PURYEAR,  
Notary Public.  
My commission expires January 10,  
1912.

Daily Thought.  
"Never quit when failure stares you in the face. A little more energy often changes a failure into a great success."

A conservation policy in Italy has its problems.

We have a great many travelling salesmen in Paducah; but none like that.

Officers of the Farmers' Union desire to be merged into Mr. Gompers' new political party.

The man who beats a mule may be a very smart man; but that is not an infallible sign of intelligence.

Commander Peary should take his Eskimos and make an expedition in search of the heart of the south.

Judging from the number of heiresses, who elope with chauffeurs, we fear that speed mania persisted in may make one permanently fast.

The redness of the sun, we suspect, is due to good old Paducah dust; but if you are afraid something is going to happen, the best thing to do is get religion.

Dr. Cook didn't come home on that ship; and we wouldn't be surprised if he were lingering somewhere behind the dressing tent curtain near the entrance to the Antarctic ring, ready to "clown" the south pole act, when the explorers start back for civilization.

If fifty real rough riders are introduced into the Central American war, it would be worth while running steamboat excursions down there to witness the battle. Leaders of opposing forces should be brought together to sign an agreement for a fight just about Mardi Gras time with a royalty on the moving picture concession.

"The president is wasting time and energy in trying to reconcile the country to Aldrich and Cannon," says the Louisville Post. The president is using his time and exerting his energy in trying to secure Aldrich's and Cannon's votes to measures, which the people demand. Since the people, and not President Taft, elected these two gentlemen to congress, it scarcely behoves any of us to criticize the president, who must needs secure the votes from those, who hold them.

THE YELLOW MONTHLIES.  
The Chicago Tribune expresses popular disgust at the trashy articles published in the "uplift" magazines. Its special target is an article in the World's Work about Chicago and her ideals. This contains matter, that was thoroughly exploited in the newspapers at the time of their origin, the material for which is found in the Chicago Commercial club headquarters. Besides the plans for rebuilding the city, the article draws unwarranted conclusions and makes statements, which The Tribune says are absolutely untrue. Pursuing the subject, The Tribune recalls articles in three or four magazines, which pretend to tell the truth, which newspapers suppress, and showed the ingrained "yellow" of their texture. Such magazines as the Outlook and

the Literary Review, which sum up the news of the week, fortnight or month in a manner impossible to the daily press for lack of time and space, and which after compiling the facts in an orderly manner, permit the reader to do his own thinking are invaluable supplements to the press, but the "uplift magazines" and the pert editorial comments of Collier's and the Saturday Evening Post, which handle such baffling questions as the postal savings bank in the same causal, flippancy manner that they might a satirical observation on contemporary manners, accomplish little good, besides calling to the attention of frivolous minds that these issues actually exist. We do not deny the ultimate value of even the "yellow press"; for it speaks the language of the people to whom it addresses itself, and thus are put on notice of the trend of public affairs. Maybe, good comes in the end, maybe the ordinary mind wouldn't care for facts without high seasoning; but it is a long way around to the truth that lies so near.

## STATE PRESS.

Charles J. O'Malley.

To the many in Kentucky who knew Charles J. O'Malley personally the news of his death in Chicago last Saturday will come with something of the force of a personal bereavement. To the many who knew him only through his contributions to current literature there will be a sense of profound regret that he has laid down his pen forever.

Mr. O'Malley was born and spent the greater part of his life on a farm in Union county. His literary bent was evidenced in his early youth, and from the time that he attended St. Vincent's Academy, near his paternal home, until his departure from Kentucky, he was a frequent contributor to the local papers of his county. He wrote poetry of a high order, much of which in former years found its way into leading magazines and news papers. Since leaving his farm in 1893 he had been the editor of a number of Roman Catholic publications, including the Midland Review, of Lebanon, and Louisville; the Observer, of Pittsburgh; the Catholic Telegraph, of Cincinnati; the Sun, of Syracuse, N. Y., and the New World, of Chicago. For some years he was a resident of Louisville, and for a time during his residence here he conducted a literary magazine known as the Illustrated South. He was a writer of high repute in the Catholic world and his services were in such demand that in recent years he had devoted no large amount of his time to poetic composition.

Mr. O'Malley was a true son of the soil and an ardent lover of nature. He had the gift of seeing "books in brooks and sermons in stones," and he wrote luminously of what he saw.

With the poet's keeper vision he saw the beauties of wood and field, the lessons of the frostball and the summer rains. There was inspiration to him in the songs of the birds, in the whistle of the plowboy, in the shimmer of the growing wheat, in the rustling of the leaves, in the sparkle of the dew, in all the myriad voices and manifestations of nature. Of these things he wrote most frequently, and he wrote faithfully and chastely and well.

It is fitting that he should sleep in the shadow of the old academy of St. Vincent's, near the home of his birth, surrounded by the quiet rural scenes which awakened the fancies of the youthful student and illuminated the studies of the mature man—Courtesy-Journal.

## A FEW CHESTNUTS.

ROB UNDER GLARE OF LIGHT.

Veggs Back Wagon Up to Postoffice and steal \$30,000.

Richmond, Va., March 29.—Under the glare of a street lamp, yeggmen backed a wagon up to the door of the Richmond postoffice either on Saturday or Sunday night, pierced the vault with steel drills and made off with more than \$30,000 in stamps and \$160 in cash. A watchman in the building was undisturbed while the robbers entered through a street window.

The office had closed at 6 o'clock Saturday evening. When a clerk opened the doors Monday morning the robbery was discovered.

Though the thieves evidently had plenty of time, they overlooked an envelope containing \$2,000 in cash.

Blind Horse Runs Away.

A blind horse attached to a light wagon owned by Dick Williams, ran away on South Seventh street about 7:30 o'clock last night and plunged into two large posts, supports of the shed in front of Jake Biederman's grocery at 305 South Seventh street.

Both posts were shattered, the horse slightly hurt and the driver came out unscathed. The animal took flight several blocks south and dashed promiscuously north on Seventh.

Repairs are being made to the shed.

John Carter Likely to GO TO REFORM SCHOOL.

Unless John Carter, a young white boy about 12 years old, improves in conduct he will be sent to the reform school as soon as there is room in the dormitory. Carter was a companion of Gene Scott, the little negro sent to the school several weeks ago, and he has been before County Judge Alben W. Barkley too many times recently. Carter was picked up yesterday by J. W. Barkley, probation officer, and given another lecture, and a warning that the next offense would mean a term in the reform school. Carter says that he left Paducah with a "blind" man and went to Kuttawa, where they were arrested. While the boy escaped, and caught a freight train and returned to Paducah.

"Well, William?"

"I can't bring two, but there's one little fellow I can take, and I'll do my damndest to bring him."—Everybody's Magazine.

The ashman was raising a can of ashes above his head to dump the contents into his cart, when the bottom of the can came out. Ethel saw it and ran in and told her mother.

"I hope you didn't listen to what he said," remarked the mother.

"He didn't say a word to me," replied the little girl; "he just walked right off by the side of his cart, talking to God."—Everybody's Magazine.

"How many of you boys," asked the Sunday school superintendent, "can bring two other boys next Sunday?"

There was no response until a new recruit raised his hand hesitatingly.

"Well, William?"

"I can't bring two, but there's one little fellow I can take, and I'll do my damndest to bring him."—Everybody's Magazine.

Such magazines as the Outlook and

## COLE

## SECURES CONTRACT FOR NEW WEST END FIRE STATION.

## Contract Let for \$5,037, Lowest Estimate from Several Bidders for Job.

## REFUSE WAGE DEMANDS.

## Five Thousand Men on New York Central May Go on Strike.

New York, March 29.—The New York Central railroad late this afternoon refused to grant the wage increase of from 8 to 24 per cent demanded by 5,000 conductors and trainmen and the presidents of these unions notified the railroad company that they would order a strike vote. The company offered an increase of from 8 to 25 per cent.

The vote to accept the counter proposition made by the company or to support the national officers of the Order of Railway Conductors and of the Brotherhood of Railway Trainmen will affect all of the trainmen and conductors on the New York Central lines between New York and Buffalo, but will have no bearing on the action of the men on owned or controlled lines, such as the Boston and Albany, Michigan Central, Lake Shore and Michigan Southern and Big Four roads, the negotiations of the employes of these roads with their employers being carried on independently of each other. Presidents Lee and Garretson would not say when they would order the vote, but intimated that the order would go forthwith.

Contractor Jack Cole, who built the third story addition to the city hall and the new Central fire station, was last night awarded the contract to build No. 5 fire station at Broadway and Fountain avenue, by the joint finance and public improvement committees of the general council. His bid was \$5,037, the lowest among seven bidders, and he agrees to furnish extra brick not included in the specifications for \$12.50 per 1,000 and make extra excavations for 40 cents per cubic yard. These figures were also the lowest submitted.

Following were the other bids: C. A. Coleman, \$5,914.46; Gus Lockwood, \$5,393; extra brick \$15 per 1,000; J. M. Byrd, \$5,332; extra brick \$13.50; extra excavations, 45 cents per cubic yard; Robert McManan, \$5,056; extra brick, \$13 per 1,000; J. W. Lockwood, \$4,995; W. M. Karnes, \$5,272; extra brick, \$13 per 1,000; extra excavations, 40 cents per cubic yard.

Contractor Cole was also given the contract to build a cabinet for the city treasurer's office for \$65.79. Members present last night were: Councilmen Hannin and Horton and Aldermen Stewart and Van Meter, of the finance committee, and Councilmen Hannin and Kreutzel and Aldermen Hank and Stewart, of the public improvement committee.

## THE LOCAL NEWS

## NEWS OF COURTS

—GET IT AT GILBERT'S.  
Dr. Gilbert, Osteopath, 642 Broadway. Phones 196.

—Rubber stamps, seals, brass stencils, etc., at The Sun office.

—Linen markers for sale at this office.

—Free city and farm real estate price list. Whittemore, Fraternity building. Phones 835.

—For Rheumatism take Hays' Specific.

—Sign writing. G. R. Sexton. Phones 401.

—For malaria and chills, take Hays' Specific.

—Flower Seeds that will grow enough to supply all Paducah, now on sale. Brunson's, 529 Broadway.

—For Stomach Trouble, Indigestion, Dyspepsia, take Hays' Specific.

—For Eczema or impure blood take Hays' Specific.

—For Constipation or Torpid Liver take Hays' Specific.

—We have the reputation of serving the best coffee in the city. Buchman's restaurant, 219 Kentucky Avenue.

—The greatest variety of type writer papers from onion skin to heavy ledgers, and in sizes from half letter to legal, at The Sun office.

—Bud Quarles, the well known sportsman, launched a new gasoline motor boat this afternoon at the river. The boat is said to have a speed of 25 miles an hour, and is one of the neatest of the craft seen around the Paducah harbor. The boat fairly skims over the surface of the water.

### Steamship Line to Panama.

Washington, March 29.—Representative McLachlan, of California, has taken up with Secretary of War Dickinson the question of utilizing army transports on the Pacific coast to establish a government steamship line to be connected by the Panama railroad with the government owned line on the eastern coast. Mr. McLachlan has discovered that five of the eighteen government transports are now idle in the ports of New York and San Francisco and might be available for that use.

Coal dealers' books show that the consumption of coal for the winter in New York will amount to one ton for each inhabitant, or about 4,300,000 tons in all.

Mr. Charles Q. G. Leigh, of Chicago, arrived in the city this morning.

### Mrs. LONGWORTH HEIRESS

Gets Part of the Estate of Rich Grandfather.

Boston, March 29.—Mrs. Nicholas Longworth is one of half a dozen beneficiaries to share in the income from half the estate of her grandfather, George C. Lee, which was probated today. Mr. Lee was a banker of this city and his total estate is valued at several million dollars.

### They Got Over It

Says Old Squire Jones to Neighbor Brown—Now that ain't funny. I feel the same. So take this money, and get the place that has Both Phones and get (2) bottles of Rock Rye and Honey.

It stops the cough and cures the wheeze. Quiets the bees and kills the sneeze.

SO CAN YOU.

## IN SOCIAL CIRCLES

### Theatre Party.

A party from Smithland attended the "Traveling Salesman" at the Kentucky theater last night. They returned home today. In the party were: Mr. and Mrs. J. Ford Abell, Mr. and Mrs. F. M. Bush, and Misses Pearl Robertson, May Fleming, Helen Dunn, Mary Thorp, Hattie Davis, Lizzie Dunn and Messrs. D. A. Dunn, Jr., and Lal Threlkeld.

Enjoyable Dance by Machinists' Lodge.

The Easter ball of the Plain City Lodge of Machinists No. 123 last night in the Three Links ball room was a most enjoyable affair. Over one hundred couples were on the floor. The arrangements were for a large crowd and all were easily accommodated. A pleasant evening was enjoyed by all. The dancing continued until early morning. The committee on arrangements was: J. E. Bell, Charles F. Seaman, Charles Mercer, Joe Danaher and Ollie Hirsch. The floor committee was Thomas Bowlen and Thomas Hirsch.

Easter German This Evening.

The German club will have its Easter Cotillion tonight at the Palmer. It is one of the first of the post-Lenten entertainments and will be an elaborate function. A number of out-of-town guests will be present for the event. The german will begin at 9:30 o'clock. At 11 o'clock a buffet supper will be served.

Marriage at Gilbertsville.

Miss Nina Pace and Mr. Charles Williams were married at Gilbertsville by the Rev. T. W. Gregory, Sunday afternoon at 2 o'clock in the presence of a few intimate friends. The bride is the daughter of the late Bob Pace and is a popular young woman. Mr. Williams is a well known farmer of that vicinity.

A Coming Event.

Mrs. E. L. Mallory and Miss Ada Thompson will receive at the Woman's club house on Friday, April 8, from 4 to 6 o'clock. Invitations will be issued the latter part of the week.

Sewing Bee With Mrs. Campbell.

Mrs. Andrew Campbell will entertain the Sewing Bee on Thursday at the Cochran apartments.

Delphic Club.

The Delphic club met this morning at the Delphic room in the Carnegie library, in regular weekly session. The program was a delightful discussion as follows:

1. First Great Novelists, Defoe, Fielding, Smollett, Richardson—Mrs. E. G. Boone.

2. Milton, the Puritan Poet—Mrs. Davis.

3. Historic London—Mrs. J. C. Flournoy.

Delegates Go.

Delegates from the Fountain Avenue and Broadway Methodist churches left this morning for Dyersburg, Tenn., where they will attend the conference of the Woman's Home Missionary society. From the Fountain Avenue Methodist church Mrs. B. T. Davis, Mrs. J. C. Martin and Mrs. J. M. Gentry attended, while Mrs. W. J. McCay went from the Broadway Methodist church society. The Rev. G. W. Banks left this afternoon for Dyersburg to attend the conference.

Kimpson Goes Acquit.

James Kimpson, who was charged with converting money of another to his own use, was dismissed of the charge before Magistrate C. W. Emery. Kimpson, it was alleged, acted as agent for J. Stanley, of Hickory Grove, for the sale of a horse, and failed to turn over the sum paid upon it. The trouble was adjusted, and no effort was made to introduce incriminating evidence.

Deeds Filed.

Tony Iseman and John Iseman, to W. C. Bridges, property at the south corner of Fourth and Norton streets, \$400.

Mr. Lucy Barrett returned to this morning after visiting Mr. and Mrs. George Langstaff.

Miss Irene Furnish returned to her home in Uniontown this morning, after visiting her sister, Mrs. John J. Berry.

Mr. C. S. Bookwalter returned from a business trip to New Orleans this morning.

Attorney George Oliver returned to Paducah at noon today, and once more will claim the city as his home. For several years he has had a large law practice in Las Cruces, N. M., but his old Kentucky home appealed to him too strong to remain away. He will re-enter partnership with his brother, Attorney W. M. Oliver, and Attorney Arthur Wickliffe.

Mr. W. M. Oliver returned this morning from Decatur, Ill., where he has been on business.

Mrs. John J. Berry returned last night from Uniontown after a visit to relatives.

If people make a city, then New York is the newest city on the continent, for only one New Yorker out of five had American ancestors three generations back.

Mrs. Henry Harp, of Memphis, arrived in the city Sunday to visit her mother, Mrs. Mollie Thompson, 519 Jackson street.

Mr. Grant Thompson, of Memphis, spent Sunday with his family, 519 Jackson street.

Mr. and Mrs. C. H. Linn, of Kuttawa, arrived in the city last night.

Detective T. J. Moore left this morning for Murray on business.

Mr. Lorenzo Emery, Bertillton clerk at the Eddyville penitentiary,

says Old Squire Jones to Neighbor Brown—I'm really 'blized to go to town. I've such an aching in my bones. My head feels like a hive of bees. I sneeze and cough and blow and wheeze.

Says Neighbor Brown—Now that ain't funny. I feel the same. So take this money, and get the place that has Both Phones and get (2) bottles of Rock Rye and Honey.

It stops the cough and cures the wheeze. Quiets the bees and kills the sneeze.

## NO SLAVERY TO WORK

Finds it Easy to Do Her House-work, After Taking Cardui, the Woman's Tonic, for Her Weakness.

Deskins, Va.—"I had serious female troubles, lasting 40 days at a time," writes Mrs. Mary A. Vandyke. "I took medicine from two doctors, but it seemed to do no good. I was so weak I could hardly walk, so I wrote you for advice, and got a bottle of Cardui. In a few days I was better. Now I feel like a new woman. I am doing my work and praise your medicine every day. I advise all my friends to try Cardui, the best medicine for women on earth."

If you suffer from any form of womanly weakness or irregularity Cardui, the woman's tonic. It helps nature to perform a cure in a natural, easy way.

Its ingredients are mild herbs, having a gentle, tonic effect, on the female constitution.

It makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, swollen cheeks fresh and rosy.

Many ladies have written to say that Cardui is worth its weight in gold. If you are a woman, try it.

Your druggist supplies it, with full instructions for use.

U. C. V. Makes Appointments.

New Orleans, March 29.—The following appointments were announced today by William E. Michel, adjutant general and chief of staff of the United Confederate Veterans:

Brigadier generals and assistant adjutant generals, Julian W. Whitling and Price Williams, Jr., of Mobile, Ala.

NEEDLES and repairs for all makes of sewing machines at F. N. Gardner, Jr., Co. 114-116 South Third street.

YOUR LACE curtains need cleaning. You will make no mistake in sending them to the Star Laundry. Phone 200.

WANTED—To furnish your umbrella with a new cover or handle.

Superintendent John T. Mulcahy, of the local plant, said that he was satisfied that there would be no further strike here. The pulp workers and others

# S.S.S. CURES BLOOD POISON

Every symptom of Contagious Blood Poison suggests a deeply poisoned condition of the circulation. No portion of the body is free from its contaminating influence; and its blighting effects are even stamped on innocent children if the ancestral blood is not rid of the infection.

Contagious Blood Poison begins in an insignificant manner, usually the appearance of a tiny pimple or sore being the only outward evidence of its presence. But down deep in the blood the treacherous virus is at work and in a short time the victim finds himself affected from head to foot. The mouth and throat ulcerate, skin eruptions break out, sores and ulcers appear on the body, yellow splotches disfigure the skin, the glands of the groin swell, and often the hair and eyebrows come out.

The only possible way to cure Contagious Blood Poison is to remove the cause from the blood. Mercury, Potash, etc., are often used with the idea that such strong treatment will kill the germs and thus produce a cure; but this is a mistaken idea—**THEY MUST BE REMOVED FROM THE CIRCULATION.** This is proven by the fact that there are thousands who took the mineral treatment for months, or even years, and when it was left off found the poison was still in the blood.

The ability of S. S. S. to cure Contagious Blood Poison comes from its blood purifying properties. It goes into the circulation and **REMOVES** every trace of the poison, makes the blood pure and healthy, and leaves no dregs of the trouble to break out later on, or to be transmitted to innocent offspring. S. S. S. is made entirely of roots, herbs and barks, each of which has a direct and specific effect in purifying the blood. S. S. S. is Nature's blood purifier, scientific and its tonic effects that the entire system

sure in its action, and so valuable are its effects that the entire system is left in fine physical condition. Home Treatment book sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

## WRIGHT TRIES A NEW ENGINE

EXPRESSES PLEASURE AT HIS SUCCESS IN ALABAMA.

Noted Aviator Declares There Is No Chance of Another Disaster Like at Ft. Myer.

NO MORE ACCIDENTS PROBABLE

Montgomery, Ala., March 29.—Orville Wright made his initial flight in this city this afternoon, when, in trying out a new engine, he soared for four minutes at an altitude of fifty feet. He expresses pleasure at his first success in Montgomery.

Just to look at Orville Wright one would not take him to be a man, who, with wonderful invention, has started the world. He is a modest sort of fellow, with a cordial smile and fraternal temperament, and seems to be quite fond of people. He talks interestingly of the many countries where his machines have been exhibited and has found much to interest him outside his airship investigations.

Mr. Wright is using at Montgomery the same machine that his brother used in flying about the statue of Liberty in New York harbor, only he is installing a rear portion, taking somewhat the nature of a tail, in which the rudder will be held. He

came down somewhat hurriedly from Dayton when he found the workmen were ready to attach this new portion. There is ever so much more of this part of the machine than before, and it is anticipated that it will add greatly to the handling of the apparatus in mid air.

People May Witness Flights.

Many persons are expected to visit the city and the grounds while Mr. Wright and his men are here. There will be no set time for the try-outs, the flights being governed by the condition of the weather. The purpose of the work here is to train men to handle the aeroplanes, and it will be a case of getting in every good hour possible in the education laid out. There is so much of a demand for the machines that the factories cannot fill it, so it is necessary to get as many men as possible to trim for handling them.

Those who care to go to the grounds will be welcome, though they may or may not see a flight. "However," says Mr. Wright, "any who come on fine days may depend almost upon seeing us go up. We have a lot of experimenting to do for the first few weeks and it is going to be up and down right often I take it." No program will be made out and there is plenty of field to sit apart and see what is being done.

Visitors to the shops are welcomed so long as they do not get in the way, and there is no attempt to conceal the big car from view.

Accident is Recalled.

Asked if he lost his nerve after being hurt at Fort Myer two years ago—an officer of the army was killed at the time—Mr. Wright replied in the negative. Twice before that time he came much nearer to being killed, though neither time was he injured. Once the machine crumpled up just over his head, when, if it had caught on his neck, death would have been certain, and the other time it crumpled onto his shoulders, a part of the construction being broken in such a way as to relieve his body from pressure.

The Fort Myer accident could not be repeated. It resulted from a wire becoming entangled in the propeller. No one could have anticipated such a result, and like every other important detail, this was discovered as a result of experimentation. The Fort Myer accident, too, was a result of not being high enough in the air. If the machine had had as much as one thousand feet more to sail it would have caught the air and sailed to comparative safety.

The heaviest movement will not

take place until the first part of April, as it will not be until then that the pastures in Oklahoma will be capable of taking care of the cattle properly, it is stated. The cause

## ASK YOUR NEIGHBORS

And you will generally find that they know of more good, intelligent people, those of good sense and discernment in your vicinity who have been cured by Dr. Pierce's World-famed Family Medicines than by all other proprietary medicines. They have been making these cures right along for over forty years and altogether likely you will easily find people all about you who will be only too glad to say a good word for them. These old reliable curatives are not exploited or urged upon the afflicted by extravagant and false promises but have a record of real, genuine cures to sustain them.

*Among women Dr. Pierce's Favorite Prescription is truly a favorite by reason of its remarkable cures which, for over forty years by far exceed those which can be credited to any medicine extant. By a little inquiry you will no doubt find some of these cured and grateful cases in your immediate neighborhood, for they are to be met with practically EVERY WHERE. They are Dr. Pierce's best advertisements. Seek their advice if you are a poor despondent over-burdened broken down, weak, or pain-wracked woman, suffering from some derangement or weakness incident to your sex.*

The People's Common Sense Medical Adviser in plain English, by R. V. Pierce, M. D., (new fully revised up-to-date edition) gives all particulars which women need to know about their peculiar functions and how to correct ordinary derangements and weaknesses. Cloth-bound volume of 1000 pages, 31 one-cent stamps, or in paper covers for 21 cents, post-paid. Why not send for it NOW? The New Edition is almost a household necessity.

Address: World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.

DR. PIERCE'S PLEASANT PELLETS ARE A MILD BUT EFFICIENT PHYSIC.

## THEY MUST KNOW

### The Evening Sun's Daily Markets.

#### Tobacco Market.

Hopkinsville, Ky., March 29.—Dealing in hogshead tobacco opened up in earnest last week on this market, though all sales made were engineered privately. Last week's sales amounted to about 200 hogsheads, sampling and selling going on every day. As has been predicted

all grades were in demand and prices ruled high. There were no fine grades offered and prices on that which was sold ranged from \$7.50 to \$15 per hundred, but quotations are running as high as \$18, and this price will doubtless be realized. Loose tobacco continues to come in sufficiently to keep the market fairly active despite the depleted supply and the unsuitable weather.

#### Livestock.

Louisville, March 29.—The receipts of hogs were 2,207 head as against 1,991 last Tuesday, 3,593 a year ago, and 5,134 two years ago.

The market was slow in opening, and prices declined 10c on light hogs and pigs, while tops and roughs sold steady; selected 165 lbs. and up sold at \$11, 130 lbs. to 165 lbs. \$10.60; pigs ranged from \$8.85 to \$10.15, roughs 10.30 down. The pens were well cleared and the market closed steady to firm.

#### Cattle.

The receipts of cattle were 1,403 as against 1,045 last Tuesday, 976 two weeks ago, and 1,464 a year ago.

There was a good crowd of local traders and butchers in evidence this morning, and a few out-of-town buyers, yet every one seemed to realize from the start that there were enough cattle on sale to go around, and the trade lacked the activity of last week; choice butchers were ready sale, some early sales about steady, but mostly a dime lower, medium and common kinds and cows of off quality were 10@15c lower. There was a good call for high-grade feeders and stockers, but few of that class here, medium and common stockers neglected and 15@25c off. Bulls strong, canners and cutters lower. Milk cows unchanged. Several loads heavy steers here, one fancy load topped the market at \$7.75, yet they were regarded as at least 100 per 100 lbs. better cattle than those sold at the same price last Tues-

Austin Tex., March 29.—The biggest rush of cattle from South Texas to the pastures of Oklahoma in the history of the live stock industry, is now in progress, according to representatives of the railroads handling the movement. It is stated that more than 130,000 head of cattle will be shipped from the ranches south and west of San Antonio during the period of four weeks that will end about April 15. Shippers have already placed orders for about 4,500 cars, in which to move their stock and the railroads are receiving additional orders every day.

The heaviest movement will not

take place until the first part of April, as it will not be until then that the pastures in Oklahoma will be capable of taking care of the cattle properly, it is stated. The cause

of this unprecedented rush is the scarcity of grass upon the range below here. There was a big shortage in rainfall during the past winter and the drought this spring has been unusually severe. Many of the pastures are practically bare of grass and the cattle are living upon the leaves of shrubs and the prickly pear. It is stated by the traffic repre-

sentatives of railroads that comparatively few fat cattle are now moving to market from Texas. The scarcity of "grasses" is greater than for many years. It is planned by the railroads to run the cattle shipments to Oklahoma in solid trains.

Bennett F. Cash.

Mayfield, Ky., March 29.—Bennett F. Cash, one of the pioneer settlers of the Fancy Farm section, died at his home near Fancy Farm, after an illness of eight days, of pneumonia. He was 76 years of age and was born in Washington county, this state. He came with his father when quite a lad when a colony of people came from Washington and other counties and settled at Fancy Farm. All of the people in that section are members of the Catholic church, and Mr. Cash, who owned thousands of acres of land, was one of the men who was the cause of such a large and handsome church being erected, as well as the big college that was built last year. Mr. Cash leaves scores of relatives in this county, besides twelve children, one of whom is Mrs. Ed Gardner of Mayfield.

In Inciting Riot.

CRUSADE AGAINST RESORTS

Cairo, Ill., March 29.—The special grand jury, impaneled to investigate the mob which attacked Alexander county jail on the night of Feb. 17, last, sprung another surprise this afternoon by reporting indictments against the owners of every resort on Thirteenth street, Cairo's red light district. The matter was brought to the attention of the grand jury by the Social Purity League organization, called into existence to clean up disorderly houses which have become scattered over the city. Failing to get direct evidence against any except those in the segregated district of the city, the grand jury found indictments against tenants and against the owners of the property, as follows: Mabel McFarland, L. A. Rink, manager of the Zerfase estate; J. Murat Guion, Clarence Nichols, Herbert estate; John Walter, John Sullivan, Robert Jones and Hattie O'Farrell.

The grand jury found thirty-nine true bills and examined 139 witnesses. A peculiar feature of the situation is that three members of the grand jury are interested indirectly in property against the owners of which indictments are brought.

The jury in its report says that it finds the city authorities "are either unable or unwilling to bring about the much needed and continuously solicited reforms; feel it incumbent upon themselves to apply more strenuous measures, and such as cannot be misconstrued or ignored," and urged that the county commissioners appropriate funds for the use of the sheriff in the employment of sufficient reliable deputies to enable him to enforce the law.

The grand jury called attention to two other sections of the city where disorderly houses abounded, but was unable to secure any direct evidence against the owners.

The coming man is really the one who is always on the go.

**STOMACH MISERY.**  
Get Rid of That Sourness, Gas and Indigestion.

When your stomach is out of order or run down, your food doesn't digest! It ferments in your stomach and forms gas which causes sourness, heartburn, foul breath, pain at pit of stomach and many other miserable symptoms.

Mi-o-na stomach tablets will give joyful relief in five minutes; if taken regularly for two weeks they will turn your flabby, sour, tired out stomach into a sweet, energetic, perfect working one.

You can't be very strong and vigorous if your food only half digests. Your appetite will go and cause nausea, dizziness, biliousness, nervousness, sick headache and constipation will follow.

Mi-o-na stomach tablets are small and easy to swallow and are guaranteed to banish indigestion and any or all of the above symptoms or money back.

Fifty cents a large box. Sold by druggists everywhere and by Gilbert's drug store.

For constipation there is no remedy so satisfying as Booth's Pill—25 cents.

IT WAS ECZEMA.

Scalp Trouble Puzzles Specialists but Was Easily Cured.

A few months ago the case was reported of a little girl living in Hackensack who was sent to three different hair specialists in New York for treatment of a scalp affection which they considered a contagious disease. One went so far as to have her hair shaved off. Later the trouble was found to be a simple case of eczema, which was cured in a few days by possum.

In the various forms of skin troubles in both infants and adults, possum produces beneficial results from the first application. Eczema, acne, herpes, rash, tetter, etc., yield readily to its remarkable curative properties. Occasional applications will quickly banish pimples, blotches and complexion blemishes and will relieve and cure itching, feet, scaly scalp, humors, etc.

Possum can be had for 50 cents at any reliable druggist's, particularly Gilbert's and R. W. Walker & Co.'s, who make a specialty of it. Or the Emergency Laboratories, No. 32 West Twenty-fifth street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

**JUSTICE BREWER  
DIES SUDDENLY**

VACANCY IN SUPREME BENCH IS OCCASIONED.

Solicitor General Bowers Is Tipped to Succeed the Venerable Judge.

APPOINTED BY CLEVELAND.

Washington, March 29.—"He was an able judge" were the sentiments uttered by President Taft when he received the news of the death of Justice Brewer. His death leaves only seven active members of the supreme court of the United States. President Taft promised Bowers, solicitor general, in their college days that he would make Bowers a member of the supreme court if he became president. Bowers is looked upon as a likely candidate for successor to Brewer.

Justice David J. Brewer was 73 years old, and was appointed from Kansas by Grover Cleveland in 1889.

Justice Brewer was born at Swarna, Asia Minor, the son of the Rev. James Brewer, a pioneer missionary to Turkey. His mother was the sister of Cyrus Field and Justice Stephen J. Field. After graduating from Yale, class of '56, and from the Albany Law school two years later, Justice Brewer began the practice of law at Leavenworth, Kan. Successively he was United States commissioner, probate judge of his county, district judge, county attorney, justice of the Kansas supreme court and then in 1888 judge of the United States circuit court.

He was found at 10:30 o'clock last night dead of apoplexy in the bathroom in his home at Washington. Mrs. Brewer was the first to discover his body.

On account of the Standard Oil and other important cases in the supreme court, his death was particularly untimely.

HAS IT IN FOR THE WOMEN.

Man Created Before Adam Arrested in Oklahoma City.

Oklahoma City, Okla., March 29.—Gus Close, a religious enthusiast, who claims to have a contract with the Lord whereby all nations are to be made one, with Close as the ruler, was arrested today and will be examined by the insanity commission. Close is forty years old, and is said to have operated in Kansas City, St.

PROVEN ECZEMA CURE.

For several years we have announced, with our recommendation, that we had found a positive cure for eczema; a simple skin wash, oil of wintergreen compounded with other healing ingredients.

Yet we know there are people right in this town who have eczema, and still have never tried this remedy.

We have, therefore, arranged with the D. D. D. Laboratories of Chicago for a special offer of a trial bottle at 25 cents instead of the \$1.00 bottle as regularly sold. Be sure of the correct name: D. D. D. Prescription.

We offer this trial bottle with our recommendation and assurance that just as soon as the patient washes his itching skin, this mild liquid will take the itch away instantly.—R. W. Walker Co.

INCREASES IN WAGES.

To Be Given Men on Minnesota Iron Ranges.

Duluth, Minn., March 29.—It was announced today that all the men employed by the Minnesota Iron ranges by the Oliver Mining company, a mining and steel corporation, would be given an increase of from 8 to 10 per cent, effective April 1. This order is the result of an investigation of the cost of living. It applies to every day laborer.

RUMOR U. S.-CHINESE TREATY.

Russian Paper Spreads Report to Russian Newspaper.

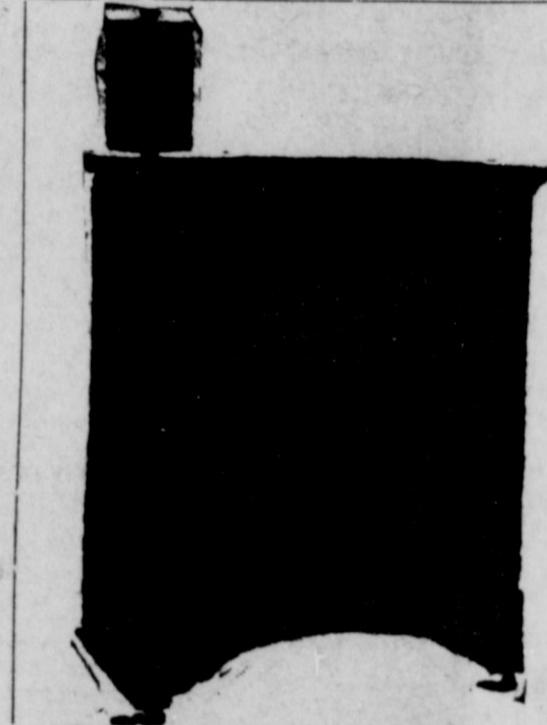

St. Petersburg, March 29.—The Rech today prints a story concerning a proposed treaty between the United States and China, which Wu Fing Fang, the retiring Chinese minister at Washington, will endeavor to arrange. The treaty, according to the Rech, will provide that the United States shall help China with her fleet in case of China being attacked.

Amendment to Railroad Bill.

Washington, March 29.—Through an amendment to the railroad bill introduced today Senator Barton seeks to prevent the railroad companies from reducing rates for the purpose of crushing water competition, by prohibiting an increase afterwards.

The apple was responsible for Adam's downfall, but many a modern man traces his to a peach.

# Refrigerator Time is Here!

We are exclusive agents for the celebrated **HERRICK REFRIGERATOR**. As the time is here when you need a refrigerator, we want to invite your most critical inspection of the **HERRICK REFRIGERATOR**. If you buy something good in this line something that will answer the purpose in every detail, you will not have occasion to buy again soon, and we can assure you that you will never have cause to regret having bought a **HERRICK**. What we say of this piece of goods is based on five years of experience in the use of it. We have learned by experience that the **HERRICK** uses less ice with the same storage space than any refrigerator made. We have also learned that we can give you more storage space in the **HERRICK** for the same money than you will pay for a cheaper make of refrigerator. **THE HERRICK REFRIGERATOR** has no zinc or metal lining to mould and corrode. It is lined with odorless spruce, plain and enameled, which keeps the refrigerator pure and sweet at all times.

## The Circulation in the Herrick is Perfect

A careful mother does not allow her children to play with matches. Keep them in a Herrick Refrigerator where they will be safe from babies and mice. Matches can be kept indefinitely in a Herrick, because the circulation is so perfect they cannot become damp.

The Water cooling device in the Herrick Refrigerator cannot be equaled. The water tank, as you will see from the cut, is attached either from the top or side of the refrigerator and is on the outside. The water passes from this tank through a coil on which the ice rests, and is drawn from the faucet at the side of the refrigerator, ice cold. The water does not come in contact with the ice at all, therefore, it is not tainted with ammonia as water usually is when the ice is put in the water. Now, in the Herrick we feel perfectly satisfied that it will answer every purpose desired and expected of a refrigerator and make the following proposition:

## Thirty Days' Trial Free

Every person who expects and wants to buy a refrigerator this season and is not fully satisfied that the Herrick Refrigerator will render the service recommended, we will gladly place the same in your house on THIRTY DAYS' FREE TRIAL. If, at the end of that time you are not satisfied with the service rendered after following the directions given, we will bring the refrigerator back without any cost to you whatever.

COME TO OUR STORE, AND SEE THE CELEBRATED **HERRICK REFRIGERATOR**, ICED UP AND IN OPERATION IN OUR SHOW WINDOW AND WE WILL TAKE GREAT PLEASURE IN DEMONSTRATING THE SUPERIORITY OF THE HERRICK OVER THE OTHER MAKES OF REFRIGERATORS.

Your Credit is Good  F.N. Gardner Jr. & Co. Your Credit is Good

Louis, Chicago, and other cities.

"I was not born," he said, "but created before Adam." I floated into this city on a cloud one day last week I have been touring the world in disguise as a representative of God for many years, but I had my first conversation with the Lord today. We were to have taken dinner together at the Lee Huckins tonight. When I become ruler of the world, I shall kill all bad people. My lieutenants will be stationed on all street corners with swords to decapitate all who are bad. All women are nuisances and will be put off the planet and not allowed in the next world."

Notice.

I have moved my office to 204½ Broadway, over Cherry's grocery, with Drs. Bright and Wilkinson. Members of the M. W. A. please take notice and call here when payments are due.

LOUIS RUTTER.

**Heyburn Conducts Filibuster.**

Washington, March 29.—Senator Heyburn inaugurated a "lone man" filibuster in the senate in opposition to a bill providing for the diversion of re-surveys of 20 per cent of the money appropriated for the surveys of public lands.

The present law authorizes the diversion of 5 per cent and the Idaho senator sought to hold the proportion-

ation at the lower figure. He declared his intention of holding out all day if necessary to maintain his position.

Weston Ahead of Time.

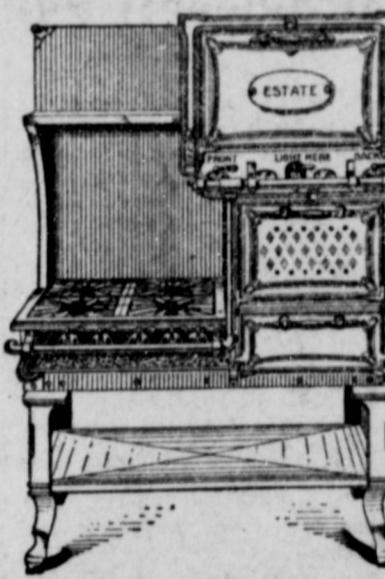

Dumas, Mo., March 29.—The pedestrian Weston arrived here from LaPlata, covering 61 miles during the day. He will cross the Des Moines river into Iowa tomorrow morning. Argyle, Iowa, will be the here today, 9 to 3.

College Baseball.

Washington, March 29.—Yale beat Cornell in the first baseball game of the season here today, 6 to 4. Princeton defeated Georgetown University in the second game of the season morning. Argyle, Iowa, will be the here today, 9 to 3.
